MOMS CLEAN AIR FORCE APPLAUDS THE INTRODUCTION OF THE 100% CLEAN ECONOMY ACT OF 2019

Bill Addresses Need to End Climate Pollution, Averts Worst Impacts of Climate Crisis and Protects Our Children

WASHINGTON, DC (November 21, 2019) – Today, Rep. Donald McEachin (D-VA) with bill co-leads Rep. Paul Tonko (D-NY), Rep. Debra Haaland (D-NM), Rep. Debbie Dingell (D-MI), Rep. Earl Blumenauer (D-OR), and Rep. Chellie Pingree (D-ME) and more than 150 co-sponsors have introduced the **100% Clean Economy Act of 2019**, a bill designed to complement other legislative proposals to address the climate crisis, that sets us on a path to achieve net-zero greenhouse gas emissions by 2050 across all sectors of the economy.

In response to the bill introduction, **Dominique Browning, Co-Founder and Senior Director of Moms Clean Air Force**, issued the following statement:

“Moms want an end to climate pollution, now. The climate change emergency is a grave threat. Our job is to protect our families. That’s why we are applauding this bill, the 100% Clean Economy Act, and we are grateful to the legislators sponsoring it. This bill declares a major—and necessary, achievable—intention to put a stop to climate pollution in every sector of the economy. It is meant to protect all of us, including the most vulnerable among us.

“Zero climate pollution across the economy by 2050 is an ambitious goal. To meet that goal, we need urgent action—and we need measurable benchmarks to know we are on target every step of the way. This bill heeds the advice of the world’s scientists, who are telling us we need to be bold in stopping climate pollution to avert uncontrollable disaster.”
